County Votes To Join COG

Gary Cook, students' association president at West Texas State University, waits at far right to shake hands with President Nixon and his daughter Tricia. The President greeted Cook and Dr. T. Paige Carruth as they toured the White House Saturday with other convention delegates.

Council Action Expected Oct. 2

Randall County officially became a member of the Panhandle Regional Planning Commission Monday.

County Commissioners, acting on a resolution presented by Bill Butler, accepted the PRPC by-laws and voted unanimously on membership.

By-laws for the planning commission were approved last Thursday by members of four area governmental units.

Potter County officials also accepted the by-laws and joined the planning commission Monday.

The resolution passed in Randall County Monday will be effective immediately.

County Judge Carroll E. Brown and Commissioner Butler were named by the Commissioner's Court to be official representatives to the planning commission. Potter County did not name official representatives at their meeting.

Canyon city commissioners have not yet voted to officially become members of the PRPC, but Mayor Paul Lindsey said the matter will be on the agenda of their regular meeting Oct. 2.

Amarillo city commissioners joined the planning commission Tuesday.

The resolution adopted by the Randall commissioners Monday was based in part on the stated assumption that Potter and Ran-

dall counties and Amarillo and Canyon "have joint and mutual physical, economic, social or other problems which do or may require joint and mutual surveys, studies, plans and related actions in order to insure the orderly growth and development of the area."

The resolution authorized Judge Brown to execute the articles of agreement and the by-laws to allow the county to join the PRPC.

Only one observer sat in on Monday's meeting. Previously meetings on regional planning commission had been well attended and had several times become fiery.

Mrs. Robert Casperson, president of the League of Women Voters in Amarillo, attended Monday's session and commended the commissioners on their action.

"Bravo," she said.

In other business, the commissioners reviewed a plat for Tangle Aire Estates, presented by Art Querry of Amarillo. The subdivision will be near Lake Tanglewood in north Randall County.

Querry was instructed to complete road construction in the proposed subdivision and resubmit his plat for approval. District Attorney George Dowlen told the court they must renew an expired errors and

omissions insurance policy on County Clerk Leroy Hutton.

Dowlen said, according to recent legislation, the clerk must be insured for a minimum of \$10,000.

The court deferred action on the policy until a later date. In other action, commission-

ers authorized Mrs. Audrey Bruse, county tax assessor-collector, to hire a new secretary at a salary of \$275.

The commissioners will attend a meeting at noon today at the Holiday Inn West in Amarillo to hear Gary Morris, a Texas highway commissioner.

Dangerous Passer Again Faces Buffs

West Texas State University's Buffaloes, smarting from a season opening football loss to Northern Arizona, host high-scoring Northern Illinois at 8 p.m. Saturday.

The Buffaloes fell 21-20 to the Arizona club Saturday night, while Northern Illinois was ripping the University of Idaho, 47-30.

Buffalo coach Joe Kerbel set out Monday to correct flaws in his club's offensive and defensive units.

For the second straight week the Buffaloes will be facing a dangerous passing quarterback. Northern Illinois' Steve Parker hit on 13 of 22 passes against Idaho for 173 yards. Bobby Stewart threw for 210 yards against the Buffs Saturday night.

Kerbel was pleased with the opening game performance of quarterback Clarence Redic. The former Odessa Ector all-stater hit eight of 14 passes for 118 yards and one touchdown and added 24 yards on the ground.

All-America candidate fullback Duane Thomas crushed the Arizona line for 96 yards in 21 efforts to pace the Buffalo attack in the first game. Olan Thompson had 67 rushing yards and carried three pass receptions 65 yards.

"We expect Northern Illinois to have even a more potent offense than the one we faced against Northern Arizona," said Kerbel. "Parker is not only a great passer, but he can scramble for the long gain."

Running backs Bruce Bray and John LaLonde provide the Huskies with a solid ground game. LaLonde rushed for over 100 yards in five games last fall.

Northern Illinois, under new coach Richard Ulrich, opened its season by falling to powerful North Dakota State, 28-0. The offense which was lacking in that clash came to the front Saturday against Idaho.

The Huskies grabbed off six Idaho passes during the clash to help their cause.

West Texas has faced Northern Illinois once previously and the game was a thriller. The Buffaloes came out of the clash with a 17-10 victory. That was in 1967 at DeKalb, Ill.

Saturday will be "Amarillo Night" at Buffalo Bowl and the halftime show will again feature over 2,000 Kids Incorporated football players. The youngsters will perform several drills, play scrimmage games and at one time release 4,000 balloons skyward.

In last week's outing against the Lumberjacks, linebacker (See BUFFS, Page 10)

Olan, Lantow Top Players In NAU Tilt

West Texas State University head football coach Joe Kerbel told Canyon Touchdown Club members Monday night that Northern Arizona University was the weakest team on the Buffalo schedule this season. Northern Arizona's Lumberjacks handed the Buffs a 21-20 season opener defeat Saturday night before about 16,000 persons in Buffalo Bowl.

"Northern Illinois looks good," he told club members. "They've got a fine quarterback and a terrific receiver."

Kerbel was not altogether optimistic about Buff chances this Saturday night.

He said Olan Thompson, who tallied 67 yards in the Buff-Lumberjack game, was named top man offensively in Saturday night's tilt. Corner back Billy Lantow was named top defensive player.

Reflecting on the loss to the NAU team, Kerbel said "It's (See KERBEL, Page 10)

WT Pair Meet Nixon

Memories of meeting President Nixon, of morning-to-midnight sessions on American college problems, and of the glory and squalor that is Washington, D. C., remain with Dr. Thomas P. Carruth and Gary Cook this week.

Dr. Carruth, dean of student life at West Texas State University, and Cook, student body president, attended the "Presidents-to-Presidents Confer-

ence" sponsored by Associated Student Governments last Thursday, Friday, and Saturday.

Some 300 student presidents and administrative officers of colleges throughout the nation assembled in Washington for the convention.

During a tour of the White House by delegates Saturday morning, President Nixon and his daughter Tricia came to the

State Dining Room.

There the President greeted the delegates in a short impromptu speech and stayed to shake hands and meet each one personally.

"You have a sizeable agricultural industry developing around Canyon," the President commented to Dr. Carruth and Cook.

"We were surprised," Dr. Carruth said. "We had no idea

he even knew where Canyon was in the state."

"I know Bob Price," the President added, "and Bob is a very good congressman."

In his speech, Nixon said he was concerned about higher education in the country and was doing all he could to reduce violence while effecting needed change.

"Strive for change, but do not resort to violence" was the key phrase in addresses to the convention by several national leaders.

Giving this advice were Fred M. Hechinger, education editor of the New York Times, and Walter G. Davis, representative of the AFL-CIO, among others.

The ASG conference also heard from Robert Finch, U. S. secretary of health, education, and welfare, and Gen. Louis B. Hershey, director of the Selective Service System.

Hershey discussed President Nixon's new plan to make men eligible for the draft only from their 19th to their 20th birthday.

Each of the speakers gave a (See NIXON, Page 10)

City Chamber To Seek Astronaut For Banquet

A moon astronaut or other representative of the National Aeronautics and Space Administration will be asked to speak at the Chamber of Commerce Banquet in Canyon this winter.

Dean House, chamber president, agreed to appoint a committee to secure the NASA speaker for the next banquet. A previous letter to NASA by the chamber board was unanswered.

Also at the chamber board's regular meeting Monday night, ten nominees for five board places were approved.

Chamber membership will decide by mail ballot about Oct. 20 which five men will fill the positions.

Those nominated and approved by the board are Eddie Knowles, C. C. Callarman, Ken Thompson, Dr. Robert M. West, Dick Dawdy, Thomas P. Carruth, Dr. Kenneth W. Waugh, Arch Hunsley, Eddie Holcomb,

and R. T. Lindsey Jr.

Members of the nominating committee were Benny Cooper, Troy Martin, and J. D. Byrd.

The four outgoing members of the board are Knowles, Dr. Emmett Smith, Rick Barrett, and Jo Zach Byrd.

Resignation of Bob Bellah was accepted by the board. Bellah resigned because of the closing of his Canyon business. One of the five elected in October will serve the two years remaining in Bellah's term. The rest will serve full three-year terms.

Nominees will be placed on the ballot in three separate columns, the board decided, because of a provision in the chamber by-laws that a farmer and someone associated with West Texas State University be on the board.

Final arrangements for the dinner honoring new faculty members of the Canyon Public Schools and WTSU were discussed.

The dinner is set for Monday, Sept. 29, at 7:30 p.m. in the West Cafeteria in the WTSU student union building.

"With 94 new faculty members this year, nearly every chamber member is taking two faculty people," Roland Black, chamber manager, commented.

Eddie Knowles reported on progress of the proposed Palo Duro Canyon scenic highway. He read a letter from R. W. McKinney of Nacogdoches, drilling contractor, expressing en-

Spearman Power In Stocky Backs

Spearman is not a break-away team with great running back speed and will have to depend on the plodding short gainer to penetrate the Canyon Eagles Friday night.

This is the opinion of Lynx head coach Larry Anthony, who is beginning his fourth season as chief Spearman mentor.

The Eagles, boasting a respectable 1, 0 and 1 record after last week's scoreless tie with Olton, will meet the Lynx at 8 p.m. Friday on the Spearman High School field.

Working from more than nine offensive sets, the Lynx will strive to keep a consistent forward movement in its march to the goalline.

Anthony said he has an adequate passer in senior quarterback Edgar Womble. Womble, too, is said to be a fair runner.

In last week's outing against Canadian, the Lynx were led to a 34-0 victory, but Anthony was not pleased with protection of Womble.

Anthony claims his backfield, too, is average. Fullback Don Whitefield, a 5-5, 165-pounder, is a power runner and fastest man on the field is halfback Gary Pool, a 5-9, 155-pound senior.

Wingback Joe Cochran, a 5-9, 155 pounder, is also said to have average speed.

"Before the season started, I expected to have a real strong defensive ball team," Anthony said. "But, our past two opponents haven't the potent offense that Canyon has and our defense hasn't measured up."

As a result, Anthony feels his team is stronger offensively. (See SPEARMAN, Page 10)

Will Gives WT Money, Books

A check for about \$50,000 and a library of about 1,200 volumes was given West Texas State University this week under the terms of the will of the late Dr. L. F. Sheffy, former head of the WTSU history department.

The check was presented University President Dr. James P. Cornette by Mrs. Sheffy.

Sheffy, who was head of the WT history department from 1918 to 1957, died in November of 1967.

The money is to be used to establish a Mr. and Mrs. A. M. Smith and Mr. and Mrs. W. B. Sheffy Memorial Library Fund.

The library, which includes the books, personal letters, papers and documents, are to be housed in the hopes that they will be housed in a separate room in the library.

Included as a part of the library are five paintings. The governing board of WTSU and the head of the history department will administer the memorial fund.

Monies from the fund are to

City Sales Tax Is Uncertain, Mayor Says

Canyon Mayor Paul Lindsey said this week he does not know what effect the Amarillo sales tax election will have on the city.

Lindsey said the city commission will probably discuss a possible city sales tax election for Canyon at its regular meeting Oct. 2.

Commissioners briefly discussed a sales tax election last winter, but decided to await a decision in Amarillo before proceeding.

"I don't know whether we'll call an election or not," the mayor said.

Amarillo residents passed the one per cent sales tax by a margin of four to one in Monday's special election.

Dr. James P. Cornette, left, and Dr. Duane Guy accept a check for about \$50,000 from Mrs. L. F. Sheffy. Mrs. Sheffy is widow of Dr. L. F. Sheffy, who died in 1967. He was former head of the history department at West Texas State University. The check was left to WTSU and the history department under the terms of Dr. Sheffy's will.

COVERING FUMBLES

It is good that we do not have an absolute dictator. For illustration, if I were a dictator I would sentence to a rock pile in "Siberia" for life any editor of a paper or magazine which again mentioned Joe Namath.

by Troy Martin FROM THE CANYON RIM

Dean Paige Carruth says that of the some 8,000 students who will be attending West Texas State University this fall about 2,000 will be living in dormitories, another 2,000 will live off campus in Canyon, 3,000 will live in Amarillo and an additional 1,000 will commute from other towns.

My friend, Hank Brown, of the ex-students association says, "Let's get on with building dormitories."

Under classmen should be provided with dormitory facilities. We need to keep as many students as possible on campus and in Canyon.

This would be invaluable to school spirit and the future of WTSU.

Townpeople should join college administrators in providing activities to keep the youngsters here on week ends. The benefits would be two-fold.

It would be good for the Canyon because the students would spend more money in Canyon. It would be good for the institution and the student because there's a lot more to getting an education than just going to school.

University association and environment play a key role in the education process. These are limited for students who must commute.

Negative thinking has killed more businesses and wrecked more lives than all other causes combined.

If you don't believe it, go to bed some night with your mind centered on the negative aspects of the previous day. See how long it takes you to get to sleep. See how bad you feel the next morning.

See how little you get accomplished the following day.

I was handed a sheet of paper last week with what is purported to be rules for communist take over. The sheet said they are excerpted from "Communist Rules for Revolution,"

obtained by the armed forces in Dusseldorf in May 1919.

Two rules stood out. They are: "Divide the people into hostile groups by constantly harping on controversial matters of no importance. Destroy the people's faith in their natural leaders by holding the latter up to contempt, ridicule and obloquy."

As I read this document I thought of a meeting held in Randall County court house last Thursday at which elected leaders of Potter and Randall Counties and the cities of Amarillo and Canyon were shouted at, ridiculed and even accused of unpatriotic behavior.

I then asked myself:

"Could it be that some who carry the banner of anti-communism (and I believe sincerely) actually may be serving its sinister cause through unseemly conduct?"

I want to applaud the Junior Chamber of Commerce for its position on Bible reading by astronauts in space.

An Austin atheist is trying to take the Bible out of the space program.

My contention is that the unbeliever will not be contaminated by a little Scripture reading.

Heroes who search the infinite heavens for knowledge for mankind should not be denied the comfort of their faith, whatever it may be, to please the whim of someone who protested in the first place only for the publicity involved.

Dairy Barn Is Open Friday

Open house for the new dairy barn on the West Texas State University farm will be held Friday, sponsored by the agriculture department.

The barn, completed at a cost of about \$27,000, has a classroom area, a milk room featuring a glass wall to observe operations, and other modern facilities.

David Erwin, 20, heads around the end in an effort to score during last Friday's scoreless tie between the Canyon Eagles and the Olton Mustangs. Erwin made about 150 yards in the game. The Eagles meet Spearman at 8 p.m. Friday in Spearman. (Photo by Steve Daugherty).

Mustangs. Erwin made about 150 yards in the game. The Eagles meet Spearman at 8 p.m. Friday in Spearman. (Photo by Steve Daugherty).

Complacency Said Downfall Of Eagles In Olton Tilt

Complacency was listed by Canyon High School Coach Dunny Goode as the main cause of last weekend's scoreless tie game between the CHS Eagles and Olton.

Goode, speaking to about 50 members of the Eagle Booster Club Tuesday night, said the Eagles were not ready mentally for the Olton game, after handling the Phillips Blackhawks a season opener loss.

While Goode praised the defensive team for its effort at keeping Olton scoreless, he said the offense could not make a consistent drive.

"The defense got them the ball time and again, but we just couldn't move it," he said.

Looking to Friday night's tilt against Spearman's Lynx, Goode said the north Panhandle team is at least three touchdowns better than Olton.

During this week's drills, Goode has worked the offense on blocking, mainly.

Coach Clark Mires, mentor of the CHS junior varsity, said his team looked good last week in its 63-0 trouncing of Tulsa. But, he said, tonight's game against Panhandle could prove much tougher.

"We've never done well against Panhandle," Mires said. "I think they'll have a good team."

Mires credited Coach B. B. Kendrick with molding the offensive line of the junior varsity.

The junior varsity meets Panhandle at 7 p.m. on the Panhandle field. The sophomore team, scheduled to play Happy tonight, will not go to Happy, but will travel with the junior varsity to Panhandle.

Eural Ramsey, president of the Booster Club, announced that raffle tickets will be sold

for \$1 apiece by club members. About 1,500 tickets have been printed.

A drawing will be held Nov. 18 at the Booster Club meeting.

The winner will win a free trip by airplane to Dallas and tickets to the Dec. 13 Dallas Cowboy-Baltimore Colt game.

Contestants do not have to be present to win.

The Eagle Booster Club meets each Tuesday at 8 p.m. to review the immediate past CHS game and to hear comments from Goode, Mires and other coaches. Meetings are in the CHS cafeteria.

BY ANN BROWN

Isn't anyone curious as to the source of support of 400,000 unemployed youths who can afford to dive all over the nation to music festivals, consume huge quantities of liquor and expensive drugs, and continue to live without labor?

One mother of a teen-aged daughter who had joined that crowd was curious enough to find out. The girl had simply walked into the local welfare office (California), told the authorities she no longer wanted to live at home (a \$50,000 house with a family of four), and they put her on welfare. She said at least 90% of her traveling companions were also on welfare.

How does the average taxpayer feel about paying the bills for drink, drugs, and debauchery for the "hep" generation? No wonder they despise the "squares" who work night and day to support them in their idleness.

A father who found his daughter, a senior at Berkeley, sharing a hippie pad with a long-haired male, cut off her allowance. She promptly got on welfare. The office sent her father the bill "as the responsible man in her family." His lawyer advised him to ignore it.

Recently, authorities in the Canyon Capers

Host For Dance

Knox Day and Roy Johnson were in charge of calling for the Canyon Capers Square Dance Club and guests from the Pairs and Squares Club on Monday.

LeRoy Pitt called a tip. The Canyon Capers attended the Chiefs and Squaws hobo supper and dance last Friday and managed to capture their banner.

Guest callers night for the Canyon Capers will be Monday, September 29. The dance will be from 8:30 til 11 p.m. and the public is invited.

Our World

San Francisco Bay area removed all teenagers from the welfare rolls, who parents had local addresses. This involved a mere 400 of them. Pressure to rid the city of the idlers was increased by 24 murders in the 7-block hippie area of Haight-Ashbury district in the first six months of 1969.

The Supreme Court's decree that one could not be cut off welfare just because he left the state "so Americans can move freely over the nation" makes it possible for the "400" to pick up their checks elsewhere.

Is it fair to condemn parents for the delinquency of their children, while the state encourages it on every hand?

Pryer, Bible reading, and reverence for the Divine Creator are not allowed in public schools.

Public school teachers are severely restricted in controlling anti-social behavior in the classroom.

Police officers are legally required to endure all kinds of insults and abuse, and even risk their lives without being allowed to strike back at obnoxious juveniles.

Courts seldom mete out punishment to young offenders.

The law forbids a child to work until he is 16, and then demands he be paid a man's wages regardless of his worth.

Anyone who ever reared a child knows he must learn to work, and respect authority long before he is 16, or he is not likely ever to learn at all.

Now that our workless generations are coming of age, perhaps it is mandatory to have some kind of program to continue to support them in idleness. But there is one fly in that ointment: If no one works, where will the "guaranteed income" come from?

Middle-aged people will recall that in their youth almost all waitresses, nurses, sales girls, secretaries, yard workers, garage attendants, and truck drivers were in their teens or early twenties. Now it is common to see people in their sixties serving in these occupations.

Probably the most destructive problem of our era is too much work for the parents, and not enough work for the children.

Before child-labor laws idled the children, parents of large families usually devoted most of their time to training the children, and keeping them at work. (And they were seldom bothered with delinquency.)

Now such parents may have to work all day, and then moonlight to support the family. The neglected, unhappy children frequently turn to drink, drugs, and vandalism out of sheer boredom and resentment.

The flower children who profess such fondness for music apparently shun any practical application of it. Lawrence Welk reports he has been vainly searching for a good violinist for two years.

It is comforting to know that in spite of the odds, the vast majority of American young people are clean, fine and productive. But a sick minority of more than 400,000 can scarcely be ignored. Those youngsters need help. And useful work is the best therapy yet discovered.

U. S. OPEN GOLF CHAMPION Orville Moody, left, is shown with Al Forrester, pro at the Canyon Country Club, and his former pupil, Bill Mullican of Alamogordo. Mullican, a cousin of Moody, was Forrester's pupil while a student at Odessa Junior College. The trio were together for play in the 1969 Odessa Pro-Am Tournament.

17-Car Pileup Mars First WTSU Classes

A 17-car pileup on the Amarillo expressway at the overpass Monday morning spoiled the first day of classes at West Texas State University for many students.

The crashes, all rear-end collisions, happened during the morning rush at about 7:45 a.m. "Traffic was bumper to bumper in both incoming lanes from Spur 48 north for more than a half mile, past the city limits," Calvin Costley, chief of police, said.

Costley investigated the Monday morning accidents.

Only one minor injury was reported from the collisions. Mrs. Nancy Downing Stone, 23-year-old WTSU student from Amarillo, suffered a cut lip from the steering wheel of her car. She did not seek treatment at the time.

Damage to cars was estimated at \$3,000 for the 14 cars that collided within the city, plus \$990 for three that bumped outside the city and were investigated by Highway Patrolman Harold Eavenson.

"Cars were stopping at Spur 48 to turn into the campus," Costley said. "One ran into the back of another, and they couldn't stop in time."

Five cars piled up first, then five more, then four, and then the three outside the city.

Three other wrecks have been investigated by city police since classes started at WTSU, all on 23rd St., U. S. Highway 87. No

injuries were reported.

The wrecks all point up the worsening traffic conditions in Canyon since the influx of WTSU students, especially for those coming from Amarillo to the university.

ENMU Takes First Place At Contest

Eastern New Mexico University's Harold Sando ran a three-mile cross country course in 14:06 to lead his team to first place in a meet in Potosi, N.M., Saturday.

The first four Eastern New Mexico University runners ran the course in under 15 minutes as the winning team captured the first five places.

Eastern won with 15 points. Wayland College took second with 57 points. West Texas State University, with only four days work as school classes didn't start until Monday, was third with 70 points and South Plains Junior College placed fourth with 86 points.

West Texas State's Jim Hogan placed sixth with a 15:21 clocking.

The Buffaloes of WTSU compete Thursday against Texas Tech and Wayland at Wayland's home course, Plainview Country Club.

Miss Strain Heads Alpha Delta Pi

Becky Strain was elected president of Alpha Delta Pi social sorority for West Texas State University at a fall retreat at the Amarillo Episcopal Conference Center during the week end.

Business meetings, rush workshops, officer-training sessions and song rehearsals were conducted during the week end.

Other officers elected for the sorority were: vice president and pledge trainer, Debbie Collins; Assistant Pledge Trainer, Christa Evans; Recording Secretary, Earline Harris; corresponding secretary, Lisa Townsley; treasurer, Georganna Jackson; guard and chaplain, Nel King; reporter and historian, Celinda Chism; standards and scholarship chairman, Karol King; rush chairman, Thena Slape; rush assistant, Mary Lou Farnum.

Also Rush efficiency, Betty

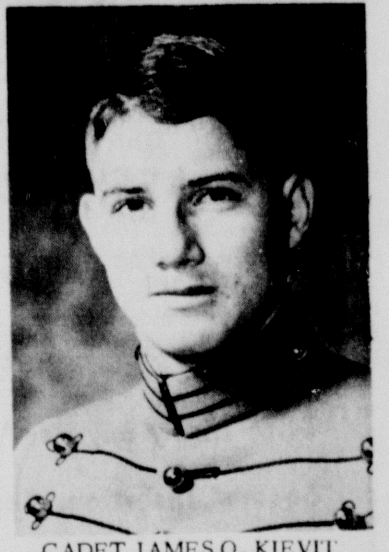

Schlenk; recommendations, Maxina Steele; activities and honors chairman, Patti Ragsdale; social chairman, Linda Glenn; song leader, Beverly Crowell; birthdays and secret sis, Delores Holcombe; Junior Panhellenic delegate, Patti Ragsdale, and intramurals and float chairman, Judy Wade.

Kievit Distinguished Cadet

Cadet James O. Kievit, son of Col. and Mrs. Donald J. Kievit, Route 2, Canyon, has been named a Distinguished Cadet at the United States Military Academy.

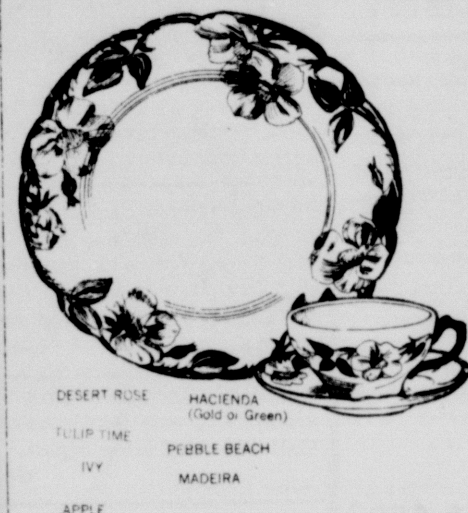

Cadet Kievit, a third classman sophomore, received the honor for having stood within the top five per cent of his class during the academic year which ended in June.

In recognition of his academic accomplishments, he was awarded the five-pointed star for excellence in scholarship at a review held here recently, and will wear the star on the collar of his full dress coat and dress coat.

THE BANKER

**HE'S WHAT MAKES ONE BANK
DIFFERENT FROM ANOTHER.**

Most people think that banks are banks. After all, they'd argue, we look a lot alike. Our services are largely the same. We all conform. (We have to, we're regulated.)

But they're forgetting the banker. He's what makes one bank different from another.

He's something else. He gets where he is because he is who he is, a man with an innate sensitivity to what's going on. Rumors, tips, wild speculation -- he leaves these to amateurs. And what he reads in the financial pages is just for starters.

Almost every area of experience comes into play in forming his decisions: world trends, political trends, scientific trends, industrial trends, social trends.

Where else can a man put together all these complex awarenesses and make them make sense? Some people might scoff at all this because they know it's not the banker's own money he's investing. Well, they ought to remember a banker has invested his life.

You'll find officers with an incredibly high degree of individual responsibility. We have so much respect for our people that we just don't saddle them with committee rules. This way, answers to your questions and decisions on loans come through faster.

When you stop in at West Texas State Bank, you'll find it's the banker who makes a bank different. We want you to know that you'll always find a welcome at West Texas State Bank. But to say you'll just find a welcome hardly says enough.

**YOU'LL FIND A BANKER
AT WEST TEXAS STATE BANK**

NOTICE TO BIDDERS

Sealed bids for traffic signal equipment for the City of Canyon, Texas, will be received at the City Hall Annex until 7:00 P.M., Thursday, October 2, 1969, and then at said office publicly opened and read aloud.

Bids will be submitted in sealed envelopes and marked "Bid for Traffic Signal Equipment."

Each person, firm or corporation submitting a bid on the enclosed traffic signal equipment shall, along with their bid, state in writing any deviations, alterations, or exceptions to the enclosed specifications. Failure to comply with this requirement will automatically disqualify their bid.

The City of Canyon, Texas, reserves the right to accept or reject any part of the enclosed material.

Method of Bidding. Each person, firm or corporation submitting a bid on the enclosed traffic signal equipment shall show on their bid a complete breakdown for each item of material and a lump sum bid.

The successful bidder shall furnish to the City of Canyon, Texas, at no cost, any technical advice that may be deemed necessary by the City of Canyon to assure proper operations of this equipment.

Delivery Date. Each person, firm, or corporation submitting a bid on the enclosed traffic signal equipment shall state the earliest possible delivery date.

Guarantee and Warranty. All equipment and material furnished shall be covered by warranty and guarantee as covered elsewhere in these specifications.

The following is a complete list of materials:

2 - Three phase semi-vehicle actuated local intersection controllers complete in cabinet with filter flasher and screened T vent for pole mounting. Two each pedestrian push buttons to actuate side street green.

8 - Magnetic vehicle detectors with 4 amplifiers.

3 - One way four section 12" signal heads with red, yellow, green arrow and green lens. 1. T. E. approved.

13 - one way three section 12" signal heads with red, yellow, and green lens. 1. T. E. approved.

6,000 ft. of No. 14 gauge, 3 conductor interconnect signal cable.

2,000 ft. of No. 14 gauge, 7 conductor interconnect signal cable.

8 - Complete traffic signal supports consisting of 8 - 30" mast arms.

Specifications may be acquired and bids deposited at the City Clerk's Office in the City Hall Annex.

(George Louder, City Clerk)
2tc-25

Notice of Appointment

NOTICE TO ALL PERSONS HAVING CLAIMS AGAINST THE ESTATE OF AGNES L. BOYD, DECEASED:

Notice is hereby given that original Letters Testamentary upon the Estate of Agnes L. Boyd, Deceased, were issued to me, the undersigned, on the 22nd day of September, 1969, in the proceeding indicated below my signature hereto, which is still pending, and that I now hold such Letters. All persons having claims against said estate, which is being administered, in the County below named, are hereby required to present the same to me at the address below given, before suit upon same are barred by the general statutes of limitations, before such estate is closed, and within the time prescribed by law.

My post office address is 1400 - 2nd Avenue, Canyon, Texas 79015.

Dated this 22nd day of September, 1969.

Raymond G. Boyd, Independent Executor of the Estate of Agnes L. Boyd, Deceased, No. 2277 in the County Court of Randall County, Texas. ltc-26

FFA Chapter
Has Meeting

Canyon chapter of the Future Farmers of America held their first meeting for the 1969-70 school term last Tuesday with a representative from Cattlemen's Life Insurance Company as guest speaker.

During the business session the chapter elected a new sentinel, Vince Wirt, and a new chaplain, Johnny Burrus.

The chapter also elected to raise the yearly dues to \$5. Members voted to sell birthday calendars and will be selling fruit and sausage during the year.

Top Output
On Holstein

Holstein-Friesian Association of America has reported a production milestone for a Registered Holstein cow from this area. The career producer has been credited with over 46,500 quarts of milk produced under official testing supervision.

Owner, Louis G. Hinder, Palo Duro Holstein Farm, Canyon, has been notified that Cal-june Seven Bobby Last 4936465 (GP), has produced 116,791 lbs. of milk and 4,640 lbs. of butterfat in 2,747 days since becoming two years of age.

Cows that stay in the herd longer and achieve high lifetime production levels have proven to be more profitable to the dairyman. Production performance of this magnitude can be attributed to good feeding and management practices coupled with the bred-in genetic ability of Registered Holsteins.

ENJOY THE MUSIC OF THE STATE'S BEST - THE EAGLE MARCHING BAND

Fall Fashion-Fabrics Advanced With Technology And Wash Aids

BY BECKY HALL
Home Demonstration Agent

The latest and perhaps greatest advance since the development of chemical fibers is their evolution into "textured" yarns and fabrics.

"The growing popularity of such fabrics is explained, partly by their resemblance to natural fibers such as cotton, wool, silk and linen and partly due to the addition of handmade type qualities detracting from the monotony of machine made fibers."

"Chemical fibers are thermoplastic and can be coiled, crimped, crinkled or looped permanently by the application of heat.

"One texturizing method results in 'stretch yarn' with permanent torque. To produce a non-stretch or set yarn it must go through an additional stage during which the stretch is eliminated and the yarn becomes stable—still retaining memory of its twisted shape so its continual effort to return to that form gives it bulk and loftiness.

"Several methods are employed in texturizing fibers: gear crimping using jets of air under high pressure pulling thermoplastic yarn over razor-sharp knife edges to give a curl formation and even knitting into fabric tubes. The fabric is heat set and then unraveled with the resulting yarn taking on the characteristic of knitting.

"Another method is compacting by subjecting the fabric to heat.

"Other interesting effects and textures are being achieved by using textured yarns in both woven and knitted fabrics.

"Good acceptance is predicted for textured yarns in men's knitted suits that offer durable press performance, machine washability and dryability with no pressing needed.

"Another excellent potential is the blend of tri-acetate and nylon for knitted outerwear."

According to Mrs. Hall the "fall fashion scene for 1969 adds up to many shapes, many lengths and many moods.

She says "a new softness is everywhere in dresses and suits. It can be in the fabric—jersies, cut velvet, chiffons, lames—or in the cut.

"Fur—both real and fake—is one of the most exciting fabrics of the season. All of the favored fashion looks, from panchos to vests or jumpsuits, can be found in fur and fake fur.

Knits, one of man's oldest forms of fabric construction, is rapidly increasing in volume for outer wear. Hosiery, sweaters, underwear and some types of lingerie are knitted staples in family apparel.

Knits appeal to consumers because they offer comfort, wrinkle resistancy and minimum care. Yarn and machine technology provide new dimensions in knit fabrics that are economical and new categories of apparel whose simplicity and ease of grace suit the temper of the times.

Double knit is at the cross-

roads. They have become a commodity. The industry is injecting some excitement in the "classic".

"A greater selection of men's 100 percent cotton shirts will be available this fall with a dress-press finish. Approximately 60 percent of the shirts will be featured in colors.

"Leathers and simulated leathers in antiqued and a finish much like the conventional resin-finished Cabretta will be used to make dresses, suits, coats, jackets, vests and skirts.

"Leathers are being used as trim on sweaters and fur coats.

"Focus attention to labels as never before because consumers may not be able to identify a trim or a fabric to determine if it is dry cleanable or wet cleanable. The "hangtag" is the certification of performance by the industry and is also a guide to care.

"With the easy-care fabrics, automatic appliances, and modern laundry products, washday now is a push button procedure with A-1 results if the homemaker has a knowledge of good laundry techniques.

"By following use and care

directions on the garment, appliance and produce and using good laundering habits the homemaker can anticipate satisfactory results.

"Insuring laundering results satisfactorily may be accomplished with: 1. Saving and reading hangtags as a habit.

2. Sorting and dividing laundry into loads that can be washed

together under similar conditions of water temperature, washing time, agitation and spin speeds as well as color, type and degree of soil and construction.

For example: white nylons and other white synthetics should be washed with white items as they are great color scavengers and readily pick up other colors.

3. Prepare the wash load by

mending, closing zippers and tying belts.

4. Treat spots and stains and heavily soiled areas by soaking, applying concentrated detergents, or using a stain remover.

5. Never overload the washer for good circulation of cleaning water and detergent.

6. When adding soap or detergent use a standard measuring cup and follow pack-

age directions for correct amount.

7. In setting the washer controls to put the machine in operation it is important to know the type and length of cycle and temperature of water needed for each particular wash load.

8. Correctly using other laundry aids includes measuring the correct amount and adding it as recommended at the correct time in the cycle.

"Recently in this country a large number of laundry products containing detergents and enzymes in combination have been released. These products include both pre-soak preparations and regular laundry detergents with enzymes added.

"Enzyme containing laundry products already exceed ten percent of the total detergent market. Studies with enzymes show that they are relatively ineffective for general laundering when used alone. However, when used in combination with compatible surfactants, builders and detergents they are found to aid in soil removed, especially material of protein composition.

"Many of the stains characteristic of dirty laundry adhere to the fibers of fabric proteins which they contain act as binding agents. This occurs in stains caused by such things as milk, chocolate, blood and other proteins.

"However, even ordinary soil adheres to clothing by being bound by proteins and body fats and is exemplified by the dirt

on collars and cuffs.

"Since common soaps and detergents remove this type of soiling with difficulty a logical solution would be to destroy the binding agent, protein. This is done by using enzymes which are complex proteins containing as many as twenty different amino acids.

"The enzymes, or bio-catalysts, cleave the protein chain in the middle releasing the soiling particles into solution.

"When using enzyme products be sure to follow instructions for bleach and fabric softeners used in the same solution render the enzymes ineffective.

"Each product should be used at the proper time in the wash cycle to insure the proper function of each one," she concluded.

focus on women

news of society by lorena miller

A leatherbound certificate is checked over by Mrs. Lou Ritter, president, and Mrs. Shirley Donnell, left. The award was received by the Tierra Blanca chapter of National Secretaries

Association for Chapter Professional Development, 1968-69, during which time Mrs. Donnell was program chairman.

Secretaries Receive NSA Award

Tierra Blanca Chapter of the National Secretaries Association (International) has been presented with the top all-around NSA award for Excellence in Educational Programming, 1968-69.

The award was received by Mrs. Lou Ritter, chapter president, who is secretary to LaGrone Funeral Chapel in Canyon.

Mrs. Leonore S. Forti, CPS, immediate past international

Rainbows To Install

Miss Lynnda Edwards will be installed as worthy advisor for the Canyon Order of the Rainbow for Girls in ceremonies September 27 at 2:30 p.m. in Masonic Lodge Hall.

Others to be installed with Miss Edwards include Martha Sykes, worthy associate advisor; Brenda Johnson, charity; Robbie Weldert, hope; and Teddi Crager, faith.

Sue Hite Club Slates Salads

Sue Hite Club will meet Monday, September 29, at the W.B. Battle Harris home, east of the city, for a salad supper to begin the club season.

The event will get underway at 7:30 p.m.

president of NSA, who is personal secretary to Read Jenkins, senior vice-president, The J. L. Hudson Company, Detroit, transmitted the award to the chapter, stating: "It gives me great pleasure in informing you that your education programming over the past year has earned for you the Chapter Professional Development Award. It is with your kind of support that NSA will continue to enhance its reputation as the world's leading secretarial association."

Happy Club Discusses Federation

Woman's Study Club of Happy met last Tuesday at the home of Mrs. Bobby Odom with Mrs. Gene Johnson as co-hostess.

The meeting was opened with the club collect in unison led by Mrs. L. E. Talbert. Roll call was answered by the 23 members present with "one word that describes federation to me."

Federation counselor, Mrs. Copus Boyd, introduced the guest speaker, Mrs. Lane Decker, who is president of the Caprock District of the Federation of Women's Clubs. Mrs. Decker spoke on projects of the state federation and gave dates of upcoming workshops and conventions.

Mrs. Dick Railsback, club president, was in charge of the business session.

The meeting was closed with the group singing the Federation song led by Mrs. Clovis Vernon.

Next meeting for the club will be October 7 in the home of Mrs. Hobart McManigal.

Marriage Vows Read For Couple

Miss Diana June Koslan and Randy George Harrison were united in marriage September 6 at St. Paul's Lutheran Church in Wilson in double ring marriage vows with Rev. Francis Koessels, Lutheran minister, officiating.

The bride is the daughter of Mr. and Mrs. Vernon Nolte of Wilson. Parents of the bridegroom are Mrs. Lorraine Harrison of Canyon and R. D. Harrison of Wichita, Kansas.

Given in marriage by her stepfather, Vernon Nolte, the bride wore a sheer white crepe over satin gown with empire styling trimmed in satin with a cowl neckline. Her veil of net illusion was held to a cluster of gardenias and she carried a bouquet of white roses and carnations carried on a white Bible.

Kay Herzog played appropriate music for the occasion and "The Lord's Prayer" was

BSP Convention Slated In Pampa

Area convention for Beta Sigma Phi sorority chapters will be held in Pampa October 4-5.

Pampa's six BSP chapters will hostess the area convention expected to be attended by delegations from 85 area chapters from Texas, New Mexico and Oklahoma.

"Under The Big Top" will be the theme for the convention.

Activities on Sunday will open with a coffee hour and forums including ways and means, socials for sorority and programs conducted by Pampa sorority members. Following a break for church attendance the group will have a luncheon Sunday where Bill Ross, president of Beta Sigma Phi International of Kansas City, Missouri will be guest speaker. He is the son of the late Walter W. Ross, founder of Beta Sigma Phi.

Expected to attend the convention from Canyon are delegations from both Chi Upsilon (ritual of jewels) and Xi Kappa Zeta (exemplar degree) chapters of Beta Sigma Phi.

sung by Mrs. Francis Koessels.

The bride's sister, Mrs. Donald Herzog of Wilson was matron of honor and another sister, Terry Nolte was flower girl.

Best man was George Green of Canyon. Ushering were David Koslan and Mark Koslan, her cousin and brother, respectively.

The couple was honored with a reception and barbecue supper at the home of her parents following the marriage ceremony.

After a wedding trip to Quartz Mountain Lodge in Oklahoma, the couple is now at home in Canyon.

Preceding the ceremony, the couple was honored with a rehearsal dinner at the Tahoka Cafeteria with the bridegroom's mother as hostess.

Both are enrolled at West Texas State University where she is a sophomore psychology major and he is a senior majoring in English.

The bride was valedictorian graduate of Wilson High School. Her husband graduated from Canyon High School and in addition to his studies at WTSU has taken a summer school cruise with the Texas Maritime Academy of Texas A & M and spent the summer of 1967 studying at the University of Texas at Austin.

Miss Mary Ann Cox

Methodist Retreat Set

A spiritual growth retreat for Methodist women will be held September 26-27 at Ceta Canyon with Miss Barbara Somerville as leader.

Involved will be members of the Women's Society of Christian Service and the Wesleyan

Service Guild.

Theme for the retreat will be "Celebration of Christian Worship".

Going somewhere? Or been? The Canyon News wants to know about it - and so do its readers.

Miss Cox To Wed

Mr. and Mrs. Walter Cox of Canyon announce the engagement and approaching marriage of their daughter, Mary Ann, to Sgt. Robert Eldon Caraway, son of Mr. and Mrs. J. B. Caraway of Dawn.

Wedding vows are being planned for October.

The bride-elect, a graduate of Canyon High School, was formerly employed with Consumers Fuel and Elevator in Canyon.

Her fiancé is stationed in Vietnam with the United States Army. He graduated from Hereford High School and formerly attended West Texas State University and Frank Phillips Junior College.

News Brief

Mr. and Mrs. Francis Gerwin of Wichita, Kansas have been visiting in Canyon with former school friends, Mrs. W.R. Franklin and Mrs. Rae Walters and in Happy with Mr. and Mrs. M. E. Counterman.

You'll have a hard time finding a wagon as easy to get into as a 1970 Chevrolet.

Try it sometime.

Climb into any other wagon, then climb into one of ours.

Chevrolet wins in a walk:

With a dual-action door that swings open without any jutting hinges.

With a rubbered stair built right into the bumper.

With a roof that slants thoughtfully forward so you won't hit

your head.

We've got eight models this year, all with an Anti-theft steering column lock, steel side guard beams, Full Coil suspension,

Body by Fisher, Engines by Chevy. And an awful lot of room.

Look into a walk-in at your Chevrolet dealer's soon.

Putting you first, keeps us first

On The Move.

NEW OFFICERS ELECTED for the Randall County Home Demonstration Council Monday afternoon were, from left, Mrs. Harry Widick, chairman, Mrs. Bill Head, vice chairman, Mrs. James Irlbeck, secretary, and Mrs. Leroy Bauer, treasurer.

Council Chairman Continues

Mrs. Harry Widick was re-elected as chairman for the Randall County Home Demonstration Council at regular monthly council meeting Monday afternoon.

Other officers elected to head the council during 1970 were Mrs. Bill Head, vice chairman; Mrs. James Irlbeck, secretary; Mrs. Leroy Bauer, treasurer.

Aside from regular committee reports and a discussion of upcoming events by the home demonstration agent, Becky Hall, the highlight of the afternoon session was reports given by county delegates who attended the state Texas Home Demonstration Association convention last week in Dallas.

Reporting on the workshops attended at the convention were Mrs. Widick, 4-H membership and citizenship; Mrs. Garland Turner, THDA, cultural arts and recreations, and health; and Mrs. Ray Metcalf, safety, publicity and family life. A highlight speaker at the convention was Senator Ralph Yarbrough.

'Model Meet' For Sorority

Chi Upsilon chapter of Beta Sigma Phi sorority met last Wednesday evening at the West Texas State Bank lobby for a "model meeting" with rushees as guests.

Vice president, Mrs. Carl Sims, called the meeting to order with members repeating the opening ritual. Reports were given by various officers and committee chairmen including the recording secretary, publicity and yearbooks report by Mrs. Bob Costley; ways and means by Mrs. Speck Benham; scrapbook by Mrs. Lester Crow; programs by Mrs. Lewel Johnson; and the story of Beta Sigma Phi was given by Mrs. Sims.

Mrs. Sims led the closing rituals and refreshments were served by Mrs. Jerry Costley and Mrs. Calvin Costley with Mrs. Jerry Costley winning the door prize.

Nine members were present and two guests including Mrs. George Stevens and Mrs. Jim Trooper.

Next regular chapter meeting will be October 1 at 7:30 p.m. in the West Texas State Bank lobby with Mrs. Bob Costley, hostess, and Mrs. Carl Sims, co-hostess. A board meeting will be held at 7 p.m. preceding the regular meeting.

The chapter will sponsor their pledge tea Sunday, September 28, in the home of Mrs. Lewel Johnston at 2:30 p.m.

Annual Lunch Set At Church

Christian Women's Fellowship of the First Christian Church of Canyon will host an annual luncheon and get-acquainted session for new university students Sunday.

The meal and fellowship will follow the regular morning worship hour, according to Rev. Ivan Adams, pastor.

Mrs. Johnston won first place in birds with her painting of blue jays on a large tile.

Mrs. Gooch won first place in the animals class with a large framed plate with a Hereford cow and calf painted on it.

Mrs. Gooch also won first place in etching on china with a cake plate painted with holly and etched with holly.

Mrs. Cook won several firsts with her roses painted on china.

A style show Thursday afternoon in the student union building started Associated Women Students' activities for the fall at West Texas State University. School clothes, pantsuits, and dressy outfits such as this were modeled by dormitory representatives. Girls modeled their own clothes.

Friendliness Found On South America Tour

"It took me a long time to make up my mind to go to South America," Mrs. Grace Knighton said, "after the way they treated Governor Rockefeller down there."

But the former Spanish teacher went, along with Mrs. Hud Prichard, also of Canyon. And although they were in Rio de Janeiro only two days after U. S. Ambassador C. Burke Elbrick had been freed by kidnappers, they said they found "friendliness everywhere."

The Canyon women saw the spot where Elbrick was taken from his car by four gunmen on Sept. 4 and carried off in a Volkswagen station wagon. They also saw the place where he was freed four days later in a northern suburb of Rio.

Elbrick was exchanged for 15 Brazilian political prisoners, who were flown to political asylum in Mexico City.

"The people of Brazil were very embarrassed over the incident," Mrs. Knighton said.

Public opinion seemed to be heavily against the urban guerrillas who carried out the kidnapping, she added.

"Kidnapping is getting popular with the radical forces in South America, much like plane hijacking here," she said.

Three of the kidnappers had been captured by the time they left Rio, the Canyon women said.

"They would have been captured earlier," Mrs. Prichard declared, "except the police did not want to harm Elbrick's chances of safety."

Only days after Elbrick was kidnapped, a prominent banker and newspaper owner in Uruguay was similarly carried off.

The women's three-week tour started on Aug. 23. First they went to Panama, where they visited Mrs. Prichard's son, Col.

Mrs. Grace Knighton, left, and Mrs. Hud Prichard look over an English-language newspaper they brought back from Buenos Aires on a recent South American tour. They were in Rio de Janeiro only shortly after Burke Elbrick, U. S. ambassador to Brazil, was released by his kidnappers.

us had a Japanese name, so those arranging the dinner had put a Japanese flag before their places. The man did not want this, and we looked until we found an American flag for them."

In Rio the women visited Dr. and Mrs. Edgar Hallock and Mr. and Mrs. Jerry Key of the Baptist Theological Seminary and publishing house there. They were friends of Mrs. Knighton.

Woolseys Have Son

Mr. and Mrs. Darrell Woolsey of Amarillo announce the September 17th birth of a son at Neblett Memorial Clinic in Canyon.

Named Leslie Wayne, the infant weighed 8 pounds 3 ounces on arrival.

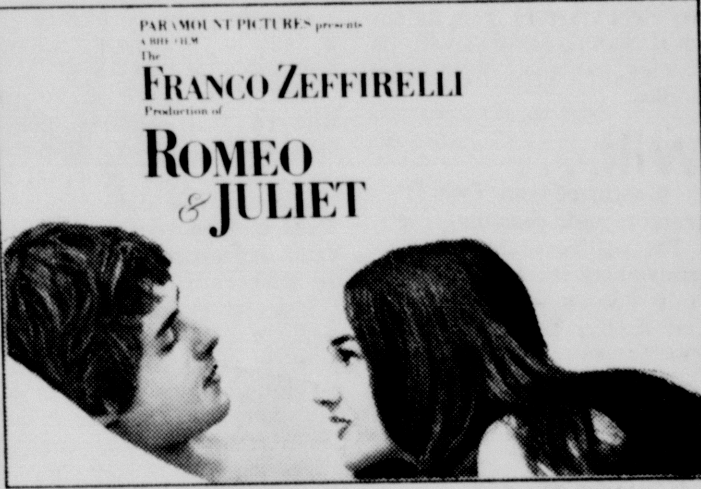

Grandparents are Mr. and Mrs. Harold Woolsey of Canyon and Mr. and Mrs. Avery Payne of Roaring Springs.

SEVENTH GRADE STUDENTS Kyle Drumm and Debbie Miller were among 150 touring the Panhandle Plains Historical Museum on Tuesday as a part of a study of Texas History. Bill Harrison, right, curator of anthropology, conducted the tours for classes of Mrs. Nadene Lyles and Mrs. Mary Week during the day.

Bufs....

(Continued from Page 1)

Harold Stuart and safety Raymond Brown made the most unassisted tackles with five each. Buff Guard John Notaro had four unaided tackles.

Stuart is also credited with 16 assisted tackles, while Brown made 13 helpers and Notaro racked up 10.

Northern Illinois' little quarterback Parker, is not only a passer, but a good scrambler and works well in Ulrich's roll-out style offense.

Tailback Bray, who was out half the season last year with knee and ankle injuries, still managed to pick up 313 net yards in 75 carries for two touchdowns. He also grabbed 23 passes for 256 yards last fall.

Bray was the top Husky rusher in 1967 with 344 net yards in 76 attempts plus 26 receptions for 257 yards.

Lalonde, a 5-10, 200-pound junior fullback, blasted for 866 net yards last season averaging 4.9 per carry and establishing new Northern Illinois season rushing record. He caught only four passes for 22 yards last season, but his main trade is running.

A stocky student, Lalonde is credited with having tremendous strength.

If the Bisons have a weakness, according to Ulrich, it is the defense, where Northern Illinois lost eight starters from its national championship eleven. He worries, too, about depth in his defense.

Will....

(Continued from Page 1)

greatest yield possible.

The will requests that in administering the fund, the officials consult with Don Sheffy, Ted Sheffy, Bob Sheffy, John Merritt and A. J. Smith.

The author of three historical books, Dr. Sheffy was the first president of the Panhandle Plains Historical Society when it was organized in 1921.

An award honoring Dr. Sheffy is already given an outstanding history student each year, as well as a scholarship.

Current head of the history department is Dr. Duane Guy.

road, Knowles said.

"We have to prove to the state that the road will increase revenue enough to pay the gatekeeper on the other side of the park," Knowles said.

Ideas for advertising Palo Duro Canyon more effectively were discussed briefly by the group.

Revival Continues

Revival services at Calvary Baptist Church will continue through Friday night, September 26, with Loren M. White serving as evangelist.

Services both today, Thursday, and Friday will be at 10 a.m. and 7:30 p.m. The public is invited for each of the services.

Kerbel....

(Continued from Page 1)

the same old trouble. There are 14 reasons why we lost. One is that we didn't play well enough to win--and the other 13 don't matter."

The head Buff mentor listed the loss of nine key offensive linemen and running backs plus the loss of three defensive linemen and backs as one of the key problems.

"We lost a lot of quality and it showed up," he said. "We're a green team and we're inexperienced."

Kerbel said another major problem was that the Buff defensive backs were not covering their zone well enough.

He explained that the WTSU team uses the zone pass defense because he hasn't enough fast defensive backs.

Good points in Saturday's game, he said, were the kicking and the passing of sophomore quarterback Clarence Redic.

"I thought Redic looked terrific," Kerbel said.

The coach said this week he personally will work with the defensive backs--perhaps changing their zone assignments--and with other weak parts of the team.

"That's an awfully good team we're meeting this week," he said. "Their coach has a lot of experience."

But, he said, "I have a lot of faith in these boys. I have high hopes for this team."

Touchdown Club President Richard Pruitt reminded members that "Go Buff" stickers are still available at a cost of \$2 each. The club receives \$1.25 of each sticker sold and Youth Industries, which makes the stickers, receives 25 cents.

The club meets each Monday night to review the past Buff game in room 201 of the University Complex South, large four-story white building in the center of the university campus.

Meeting time is 7:30 p.m. A film of highlights of each Buff game is run at the meeting and explained by Kerbel.

Pop Bottle Raid Saturday In City

Post 66 Boy Scouts are to conduct a "pop bottle" raid Saturday morning.

Funds from the project will be used to finance scouting activities and go into the trip fund.

New 4-H Club Formed Here

Jowell 4-H Club was organized as a new county 4-H club at a meeting last Thursday evening where Gary Hinder was named as club president.

Other officers elected were James Irlbeck, vice president; Rhonda Davis, secretary-treasurer; Jeffrey Downing, reporter; Greg Hinder, photographer; and Mr. and Mrs. Ray Hinder, adult leaders.

The club will meet on the first Thursday of each month beginning with October. Prospective 4-H members are invited to any club meeting.

Nixon....

(Continued from Page 1)

10- to 15-minute talk, and then an hour or so of "very challenging questions" would follow, Dr. Carruth said.

Dr. Carruth and Cook agreed that all speakers, including Secretary Finch and Gen. Hershey, were well received by the students. There was no heckling or disruption.

Theme of the convention was "To Seek the Answer Together."

The 300 student presidents and their administrative officers sought answers to such problems as the role of student government, administration and faculty on campus; lack of finances for faculties, libraries, scholarships; problems of black colleges who find their best teachers in demand elsewhere; and the draft.

Arch N. Booth, executive vice-president of the U. S. Chamber of Commerce, addressed the group on campus-community relations.

Dr. Carruth and another dean were cautioned against walking down the street to a movie at night by the receptionist at their hotel.

"With all the muggings and beatings around here, you're a fool to step outside this hotel at night," she warned.

It's a sad state of affairs for our capitol city, both delegates agreed.

Spearman....

(Continued from Page 1)

The Lynx will no doubt have their eye on little David Erwin, Canyon's speedster back, who gained about 150 yards in last week's game.

Spearman is concentrating, too, on pass defenses to counter Canyon quarterbacks David Carter and Mike Swartzell in the passing department.

Speaking of the Eagles, Anthony said "they are stronger than any team we'll play the rest of the year. They've got real good size and are well coached."

Anthony said he feels the Eagles are vastly improved over last year's team.

But, Head Canyon Coach Dunny Goode is not pleased with his Eagles.

"They were not mentally ready for the Olton game," he said. "But, I think they're prepared for Spearman."

In its first outing of the season, Canyon whopped Phillips. Goode has said that Spearman is at least two touchdowns better than Olton.

"I believe if we play our very best it'll be a very close game," Goode said.

Goode said Spearman's defense is particularly good, holding Canadian to only three first downs last week.

Spearman returns eight starters from last season's 7-3 ballclub.

Canyon may be hurt to an extent this week by the loss of Al Bayless, a 5-11, 198-pound senior, who was injured Tuesday in practice sessions. Bayless has been a key power runner in the Eagle backfield.

Goode said Tuesday he is not sure Bayless will be able to play against Spearman.

Fred Wilson, offensive tackle, will be back in action this week. He was injured in a fire last summer and has been unable to play.

In last year's Spearman-Eagle game, the Canyon team won 21-19, but the Lynx were on the Eagle one-foot line when the final buzzer sounded.

Rick Hales, defensive line-backer, was top man on the defense in last week's game. He made 10 tackles and assisted on four.

Darrel Breitling, also a defensive linebacker, made six tackles and three unassisted tackles.

Pat Hickman is credited with receiving four passes for 13, 11, 12 and 7 yards.

Bayless made the top score of 94 for his offensive effort.

WT Board Has Meet

A new committee, consisting of various deans and students of West Texas State University, held its first meeting of the year Wednesday afternoon.

The Union Board, chaired by Frank Castleberry, director of the Student Union Building at WTSU, was established at the end of the spring semester.

It was established on a recommendation by the Committee of '67.

Dr. T. Paige Carruth, dean of student life at WT, said a primary function of the board will be to guide the use of the new physical activities building which is under construction on campus.

Dr. Carruth said the purpose, aims and goals of the board will be wide-reaching. He said part

Church Centers Seek To Help Students

BY CAROLYN RINEHART

"Today's college student has less interest in traditional religion but more interest in religious questions than his parents had," one West Texas State University campus minister said recently.

"To most people," he continued, "religion is a departmental part of life. But if you accept God as being at the very bottom of everything, as being basic, then questions like 'Who am I' and 'What is my destiny?' become religious questions."

The speaker was the Rev. Charles Pedersen, director of the Episcopal University Center at WTSU. He is also chairman of the Campus Christian Community.

The CCC was organized three years ago by most but not all of

the church student centers to offer a combined year-long program on a broad scope of religious and moral topics.

Ministers from the Episcopal, Catholic, Methodist, Lutheran, and Christian-Presbyterian student centers met during the summer to plan the fall CCC program.

The first event on the schedule is called "See-Thru Package No. 1." It is described as "three provocative short films--'This Solitude Thru Which We Go Is I', 'Not As Yet Decided', and 'Awareness'--that need to be seen to be discussed."

Three other programs of films and discussions are set for the fall semester. A "week-end identity conference," conducted by Dr. Charles Mahone, a Texas Tech psychology pro-

fessor, is also scheduled. "Tomorrow's Environment-Ugh!" will be the topic of a CCC speech by Dr. Daniel E. Willard, a University of Texas biologist.

How many students attend these programs? "Last year's schedule was similar," Pedersen said, "and our average attendance was 100 to 200. For one speaker we had about 500."

All of the centers participating in the CCC except the Methodist have a small number of WT students in the denomination, Pedersen said. (Lutherans last fall had 125, Episcopalians 180, and many of these were commuting students rather than residents.)

The CCC represents a new direction in campus religious work--a trend away from the student center as a "home away from home" and toward more involvement in university affairs.

To Pedersen, "the building idea is no longer the only way."

Some denominations in the CCC, such as Episcopalians and Catholics, depend upon the ecumenical organization to supply virtually all religious offerings to their students other than Sunday church services.

Others, like Lutherans and Methodists, have their own program as well.

And the Baptists and the Church of Christ, two large student centers, depend entirely on their own program and do not participate in the CCC at all.

"It's not that we're afraid of the word ecumenical," Bill Webb, director of the Baptist Student Center, said, "but we are definitely against doing away with the student center. We have a broad program."

Gordon Downing, director of the Church of Christ student center and the senior member of the religious leaders in number of years at WTSU, said, "We chose not to join the CCC because their way of achieving their aims is different from ours. Sometimes one of their programs will conflict with Bible study."

Both directors, however, say they are in accord with the purposes of the CCC, and they do not discourage their students from going to CCC programs.

However the church goes about it--whether the approach is conservative or liberal, whether the center participates in the ecumenical organization or goes it alone--the fact remains that it's hard to get students out for religious activities.

"A student center is doing well to get 10 per cent of the students who sign registration cards as being of the denomination in regular attendance," the Rev. Sam Nafziger, pastor of St. Paul's Lutheran Church and University Center, said.

This opinion was shared by most other campus ministers. Contributing to the low attendance is the fact that many students are daily commuters, and others go to their home towns every weekend.

Still, a basic lack of interest is revealed. What are the individual student centers doing this year to attempt to overcome this apathy?

At the Lutheran University Center, a new program involving faculty members is planned. Nafziger plans to ask a Lutheran faculty member each month to lead a student forum discussion on a relevant topic--the Christian conscience and war, science and the Christian faith, choosing a career, and so on.

At the Church of Christ, Downing seeks to make the center a "home away from home," emphasizing social affairs, recreational facilities, and devotional talks led by students or a visiting speaker three nights a week. A newsletter, The WT Christian, keeps members informed once a month.

The Methodists plan a weekly Sunday supper at the student center with a program. Small worship groups meet on Tuesdays, Wednesdays, and Thurs-

days, and Dr. Cecil R. Matthews, director, said study groups would be organized later.

"Our program can be divided into six areas," said Webb of his Baptist Student Center, which ministers to some 2,500 students.

"We have worship, Bible study, fellowship, evangelism, enlistment, and missions," he continued.

Vespers are held two evenings a week at the center. Social affairs are numerous. Each year the center sponsors a Favorite Professors Breakfast, to which the students invite the faculty. One professor is elected by the students as "Favorite."

Receiving the honor last year was Walter L. Shelly, assistant professor of government.

Baptists also have three missions in Amarillo to which they give regular service. Two of them, called Our Community House and Neighborhood Opportunity Center, are located in Negro neighborhoods.

In these missions the students help with children's recreation, teach crafts, and serve as tutors.

In the Faith City Mission, a downtown Salvation Army-type project, the students conduct a worship service one night a month.

Even with its varied program, however, the Baptist Student Center has only about 100 real "regulars," Webb said. The Kickoff Party recently this fall attracted about 175.

Personal counseling is an important part of all student religious work. Four of the centers also offer Bible and related courses as a part of the college curriculum.

Four directors of student religious centers register West Texas State University students for Bible courses. Gordon Downing of the Church of Christ center gives a student a registration card as Charles Patterson, Episcopal; Bill Webb, Baptist; and Dr. Cecil R. Matthews, Methodist, look on.

Bird Population Small But Deer Look Good

Though the game bird population in Randall County continues small as dove hunting season progresses, area hunters can look forward to a more promising deer season.

Except for scattered bunches, doves have gone below the caprock to a warmer climate, according to Stanley McDonough, local game warden of the Texas Parks and Wildlife Department.

Dove season started Sept. 1 and will extend through Oct. 30. Shooting hours are from noon to sunset every day.

Quail season will open Nov. 8 and continue through Jan. 31. "Few quail can be seen in Randall County," McDonough said. The county population is mostly bobwhites with a few scaled or blue quail.

A special archery hunt for deer and wild turkey will precede the regular firearms season. This hunt season will be from Oct. 1 through Oct. 16.

In the hunt, one buck deer or one wild turkey of either sex may be taken with longbow only. The archery season is limited to Gray, Potter, Wheeler, and Randall counties, McDonough said.

Regular deer and turkey season will start on Nov. 29 and continue through Dec. 14.

"Deer prospects look good," McDonough said. "As for turkeys, there are only a few, mostly in Palo Duro Canyon."

To hunt deer or turkeys a resident hunting license costing \$3.51 is required. Other game may be taken in the county of one's residence without a license, unless the hunter is shooting on a specially restricted area.

Pheasant season will begin on Dec. 13 and last for nine days. Each hunter is allowed two cocks per day or in possession.

An annual event for hunters in January is the Aoudad sheep hunt. Released in Palo Duro Canyon south of the state park in the 1950s, these natives of

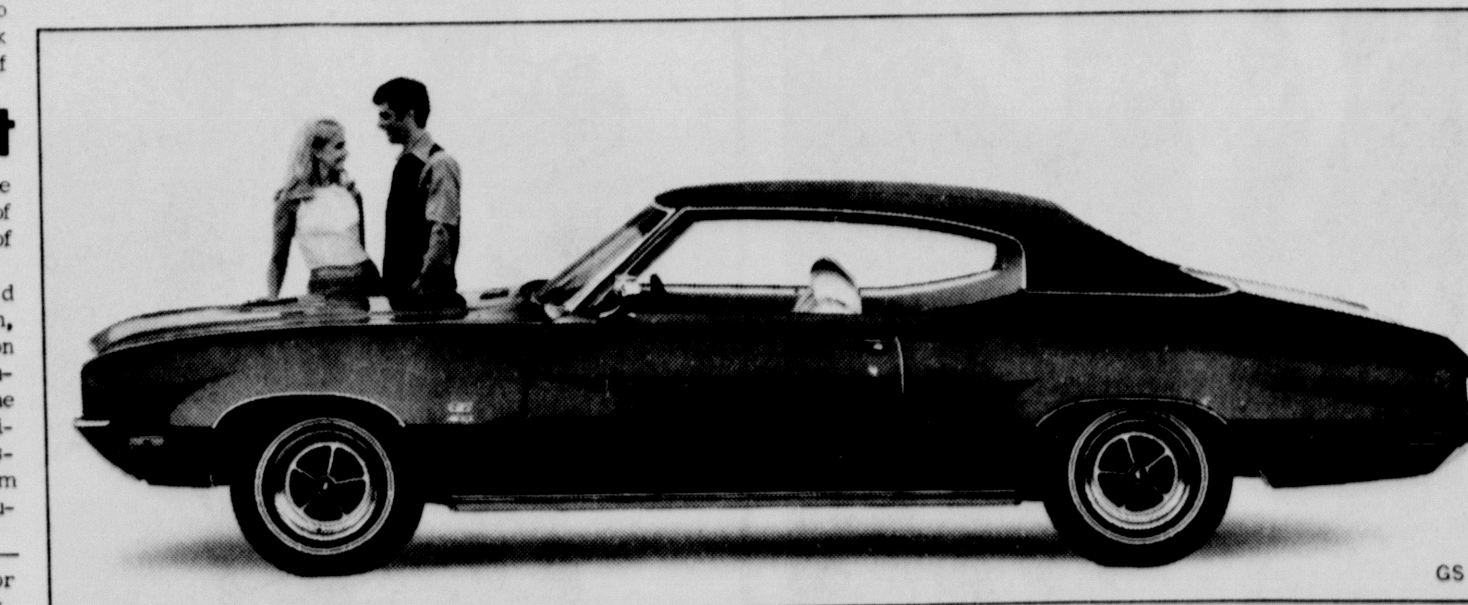

Africa have done well and multiplied.

The hunt will begin on the first Saturday in January and last for five days. Permits are issued to landowners on the canyon, and hunters must obtain permits from them.

A hunter is allowed one sheep of either sex.

The 1970 light-your-fire Buicks are here.

They're just for you. The cars you've been asking for. From Buick 1970. This one is the GS 455. Sleek, sporty, exciting. Its engine? 455 cubic-inches. 350 horses strong. With a four-barrel carburetor that breathes through real air-scoops. Four on the floor? A finely tuned 3-speed automatic? Both are available. Power disc brakes. Positive traction differential. High performance rear axle ratios, too. And lots more. Wide-tread fiberglass belted tires that are standard on all 1970 Buicks give improved traction during braking, cornering and acceleration; significant increases in tread life, and substantially superior resistance to road hazards. Side guard beam construction for added protection. Body by Fisher. There's luxury, too. Bucket seats, if you want them. Full carpeting. Obviously the most exciting car we've ever made. And one that you've been asking for. See it. See all the 1970 Light-Your-Fire Cars. The Gran Sports and Skylark Sport Coupes and Convertibles.

BUICK MOTOR DIVISION

Wouldn't you really rather have a Buick?  

SPEED READING CLASSES SET FOR CANYON

The famous Cutler Accelerated method of speed reading, created by Dr. Wade E. Cutler, who holds a doctorate in psychology, will be taught here in both day and evening classes.

The average person today reads some 200 words per minute with about 60% comprehension - a rate inadequate to cope with today's reading demands in school, college, and business.

This widely acclaimed course guarantees its graduates will read at least 1,000 words per minute with a definite increase in comprehension.

Many graduates of the nine-week program far exceed the guarantee and complete with rates of 2,500 and more words per minute with far better comprehension.

Concentration, recall, study and test-taking skills show a remarkable degree of improvement.

Such achievement means that a person can read books of average length in 45 minutes or less, and understand, remember, and enjoy them better than ever.

This remarkable accelerated reading and study course is offered here exclusively by Accelerated Education Schools with locations in major cities in Texas, New Mexico, Louisiana, and Oklahoma.

This professionally conducted course boasts over 10,000 successful graduates due to its common sense approach to better and faster reading, and to its staff of professionally qualified master teachers.

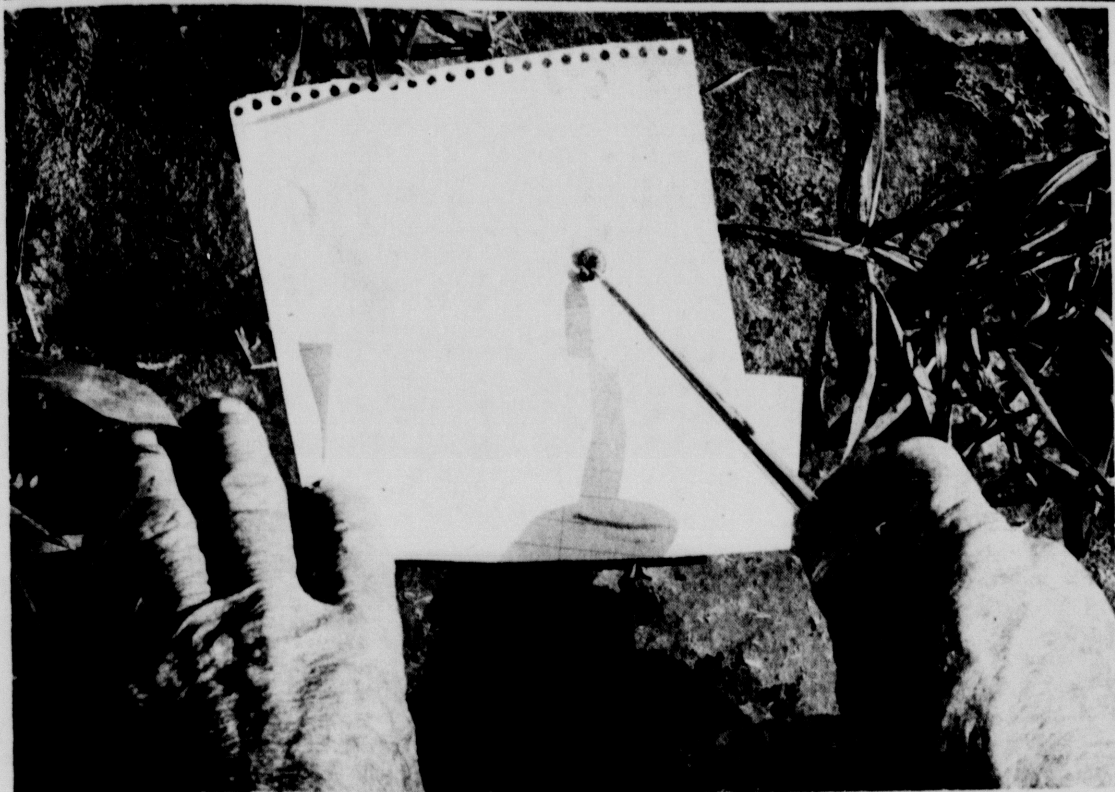

A series of meetings has been scheduled for those in the Canyon area who desire to know how they too may learn to read with greater speed, power, and efficiency.

At these free one-hour orientations, full details about speed reading and the unique Cutler Accelerated Method will be given to those forward-looking persons attending.

Since there is no cost or obligation by attending, you owe it to yourself to attend the time most convenient for you. Drop in and find out how you can make 1969 a more successful year.

All meetings are open to the public, and will be conducted as follows:

GIRL SCOUT HOUSE	1605 3rd Avenue
Monday, September 29	at 7:30 p.m.
Tuesday, September 30	at 7:30 p.m.
Wednesday, October 1	at 7:30 p.m.
Thursday, October 2	at 7:30 p.m.
CANYON	

Stacy Howell points out the armyworm, responsible for much wheat damage in Randall County and surrounding areas during the past week. This infested field is 1 1/2 miles east of Canyon.

Armyworms Threaten Wheat Through Area

Armyworms, infesting winter wheat just after it sprouts from the ground, are causing concern among many wheat farmers of the Canyon area.

Damage so far has been widespread, though not universal. "It started about Sept. 13," John Brazzil, county agricultural agent, said.

"We began to get calls about the worms. Within two or three days, they had been reported throughout the Panhandle area, from south of Lubbock up into Oklahoma and Kansas.

"By the middle of last week, they were feeding in many fields in Randall County."

The worms attack wheat when it is two or three inches high, eating it down to the ground and leaving bare spots in the field.

According to a booklet of the Texas Agricultural Extension Service, the armyworm is an insect with four life stages.

The adult stage is a small brownish moth with a wingspan of 1 to 1 1/2 inches. The female moth may lay as many as 1,000 eggs in her short life span of four or five days.

The egg hatches in three or four days into a worm, the destructive stage of the insect.

The worm, a small brown or brownish-gray caterpillar with three stripes on each side of the body, can be seen on the ground or on infested plants. After voraciously eating leafy material for about 14 days, the worm matures and burrows into the ground.

This ground stage, or pupa, lasts only a few days before an adult moth is hatched from it.

"Total life cycle of the armyworm lasts only about 21 days," Brazzil said.

Foods of the armyworm include any grassy plant, so the insect is potentially destructive to range and lawns as well as to wheat.

"Wheat has been the only thing bothered here so far, however," Brazzil commented.

When a farmer discovers the worms, Brazzil said, he has the alternatives of reseeding the field or spraying for the insects, or both.

"Several insecticides give good results," he stated, "but the cost factor must be considered, and also when the sprayed wheat is to be used for grazing."

He advised farmers concerned about worms to watch the fields very closely each day, looking for bare spots and for worms on the plants. He did not

recommend preventative spraying unless an actual threat exists.

Insecticides recommended for armyworms by the Texas Agricultural Extension Service include carbaryl (Sevin), DDT, endrin, methyl parathion, parathion, toxaphene, and toxaphene-DDT.

Among farmers who have reported extensive worm damage is Meredith Warren, who has a wheat field 1 1/2 miles east of Canyon.

"We'll reseed the field," said Stacy Howell, who works for

Earns Degree

Marion Thomas Maness, left, received his doctor of education degree from Darrell Holmes, president of Colorado State College in Greeley, Colorado, August 21. A former instructor in Huntsville, Henderson and Canyon public schools, Dr. Maness will be an assistant professor of industrial education at West Texas State University.

Happy Homecoming Friday

The seventh annual homecoming is set for Happy Public Schools Friday when the Cowboys meet the Vega Longhorns at 8 p.m.

Activities begin at 1 p.m. with registration at the new entrance to the high school. Fee will be \$1.

The pep rally, crowning of the queen and annual homecoming honors assembly will be at 2:30 p.m. Special guests will be the Girl's Regional Basketball Team of 1939. Honored classes will be those graduating in '09, '19, '29, '39, '49, '59, and '69 and the anniversary classes of '19 and '44.

A buffet supper will be catered for the homecoming with the menu consisting of ham or fish, baked potatoes, corn, beans, rolls, tea, and strawberry

shortcake. Tickets for the supper will be \$1.50 for adults and \$1 for children under 12 years.

Following the football game coffee will be served in the school cafeteria at no charge.

Pfc. Tinsley In Vietnam

Pfc. Michael Tinsley left Camp Pendleton, California September 11 following Marine training.

He is now stationed at Da-Nang, Vietnam with the Force Logistic Services.

He graduated from Canyon High School, attended West Texas State University and then enlisted with the U. S. Marines.

He is the son of Mr. and Mrs. Ray Tinsley of Canyon.

Financial Aids Available At WT

A young person who wants to go to college but doesn't have enough money can probably find a way to go by consulting Milton Morris, director of student financial aids at WTSU.

Except for one small federally-funded program for those in extreme economic need, the student must pay all back after graduation.

Repayments maintain the funds started by private contributions or by tax money, federal or state.

About the only handicap remaining to the prospective aid-seeker is if he is married. "We don't believe in subsidizing marriages," Morris said.

Low high-school class standing, course deficiencies, or being Negro or Latin-American are not the handicaps they once were. Minority group students, however, have no monopoly on college assistance.

Looking more closely at the different types of aid available, there are five separate programs.

First, there is the Opportunity Plan, a privately financed program operated at WTSU since 1953. About 350 students are expected to take advantage of the plan this fall. Of the 350, some 25 will be black, Morris estimated.

In this plan, Morris and the student work out a yearly budget, which usually comes to \$1400 or \$1500 for the nine-month period.

An account is opened in the financial aids office for the student in the amount of the budget. The person deposits what he can into the account, and may withdraw to the extent of the budget.

The difference between what the student deposits and what he withdraws becomes the amount of his loan. Many students reduce their loan amounts with part-time jobs, Morris said. They must pay back the loan on graduation, though it carries no interest.

This program receives no government funds, Morris stated, but is entirely supported by

Spirit Signs On Sale In Canyon

"Go Buffs" spirit signs will be sold by local youngsters during the next 10 days, and part of the proceeds will go toward the children's own Kids, Inc., football teams.

The plastic signs, with "Go Buffs" lettered in red on a white background, are designed to be fastened inside a car or other window.

Children will sell the signs door-to-door for \$2, Richard Pruett, executive vice-president of the Buffalo Touchdown Club, announced.

Youth Industries, affiliated with Kids, Inc., football, will receive 75 cents from each sign sold, Pruett said. The remaining \$1.25 will go to the Buffalo Touchdown Club at West Texas State University.

The signs are being sold in 10 cities in the Panhandle.

"We are trying to get the name of the WT Buffaloes—not just in football, but in all sports—in front of people in this entire area," Pruett said.

FBC Revival Continuing

Spiritual Enrichment Week services at the First Baptist Church continue through Friday with Dr. Gordon Clinard, president of the Baptist General Convention of Texas, as evangelist.

Services today, Thursday, and Friday will be at 7:30 p.m. with an early morning worship at 7 a.m. at the Baptist Student Union on the campus of West Texas State University both mornings.

The public is invited for the services.

Parent Nights With Teachers

Parent night for sixth grade parents will be held tonight, Thursday, at 7:30 p.m. as parents and teachers convene for a general session in the annex cafeteria at Rex Reeves Elementary School.

Following the general session, the parents will then advance to discussions with homeroom teachers.

First grade parents will be meeting with teachers next Tuesday and Thursday nights, September 30-October 2, both at 7:30 p.m.

Meetings have already been conducted for third, fourth, second and fifth grade parents.

donations. Students who have benefitted from the Opportunity Plan in the past have donated \$83,000 to the fund above loan payments.

In addition to the 350 students receiving help from the Opportunity Plan, 200 have graduated and are now paying back their loans, Morris said.

A second source of help is the Work-Study Program, by which the federal government contributes to the salaries of student workers who need aid.

To be eligible for Work-Study, a student must submit a financial statement to the College Scholarship Service. Morris sends these statements to the service's California office.

The service, by comparing the student's income and liabilities with thousands of others, determines to what extent his family should be able to help him. When this minimum is met, the student becomes eligible for a Work-Study job.

About 275 students are expected to work in these jobs this fall, Morris said. Of these, 15 or 20 will be black, he estimated.

The students may work up to 40 hours a week in the summer and between semesters, and they work 15 hours a week during the school term.

Their jobs can be with any non-profit organization.

As an example, he pointed out, about 40 students work in the WTSU library. Twenty of them are on the regular university payroll. The other 20 are on Work-Study, which means that three-fourths of their salary is paid by the federal government.

A third aid source is the National Defense Student Loan. The recipient must be certified as to need by the College Scholarship Service in the same way as for Work-Study.

The student pays back his loan after graduation plus three percent interest. If the student teaches after he graduates, 10 per cent of his loan is forgiven for each year he teaches, up to five years.

About 250 students are on National Defense Student Loans, Morris said.

A fourth source of aid is a program similar to the NDLS, but financed by the state—the Texas Opportunity Plan.

Students are certified as to need by the College Scholarship Service. They receive a loan in the needed amount, then pay it back after graduation.

Interest on TOP loans runs to seven per cent, but if the student's family income is under \$15,000 the state will pay the interest. About 100 students are expected to receive this type loan at WTSU.

The fifth type of aid is the Educational Opportunity Grant. It is the only type the student does not have to pay back.

Only 75 or 80 students a semester receive grants, Morris said, and these are students with poor families and poor academic backgrounds, who would probably not be able to keep up their grades while holding a part-time job.

"Some schools use the federal grant as a scholarship program, to attract A students," Morris said, "but this is not what the program was designed for."

"It enables us to take a gamble on some people who would certainly not be able to go to college otherwise," he said.

As with the other programs, Morris and the student work out a budget. The grant the student gets must be matched in amount by a loan or a job, so no student is entirely supported by the grant.

Students on the grant are required to attend a special study session with an experienced tutor, called "super-study," fifteen hours a week. This helps to meet their need for supervision and individual assistance in course work.

News Briefs

Sheila Blanche Abbot of Canyon, a student at Southwestern State College in Weatherford, Okla., has been named to the President's list at the school.

The President's list consists of students who have maintained an "A" average for the summer semester.

Miss Abbot was one of 154 students to make the list.

Mrs. A. M. Thomason of Goul, Oklahoma visited several days last week with her aunt, Mrs. W. H. McAtee, in Canyon. Mrs. Thomason also visited with Mrs. McAtee's daughters, Mrs. C. N. Tippery and Mrs. Ruth Chandler, and their families.

Head Coach Joe Kerbel of West Texas State University, right, accepts the keys to a new Pontiac from T. S. Stevenson Jr., who donated the automobile to the WT athletic department for use by coaches. Stevenson in owner of Stevenson Motor Co. in Canyon.

New Addition Is Completed For Center

A \$7,500 addition was recently completed joining the Church of Christ Bible Building with a building previously owned by the Methodist Student Center, said Gordon Downing, director of the Bible Chair and head of the WTSU Bible department.

The addition joining the two buildings houses the secretary's office and an informal lounge. The old Bible building

has been converted to house a classroom, library, reading room and game room.

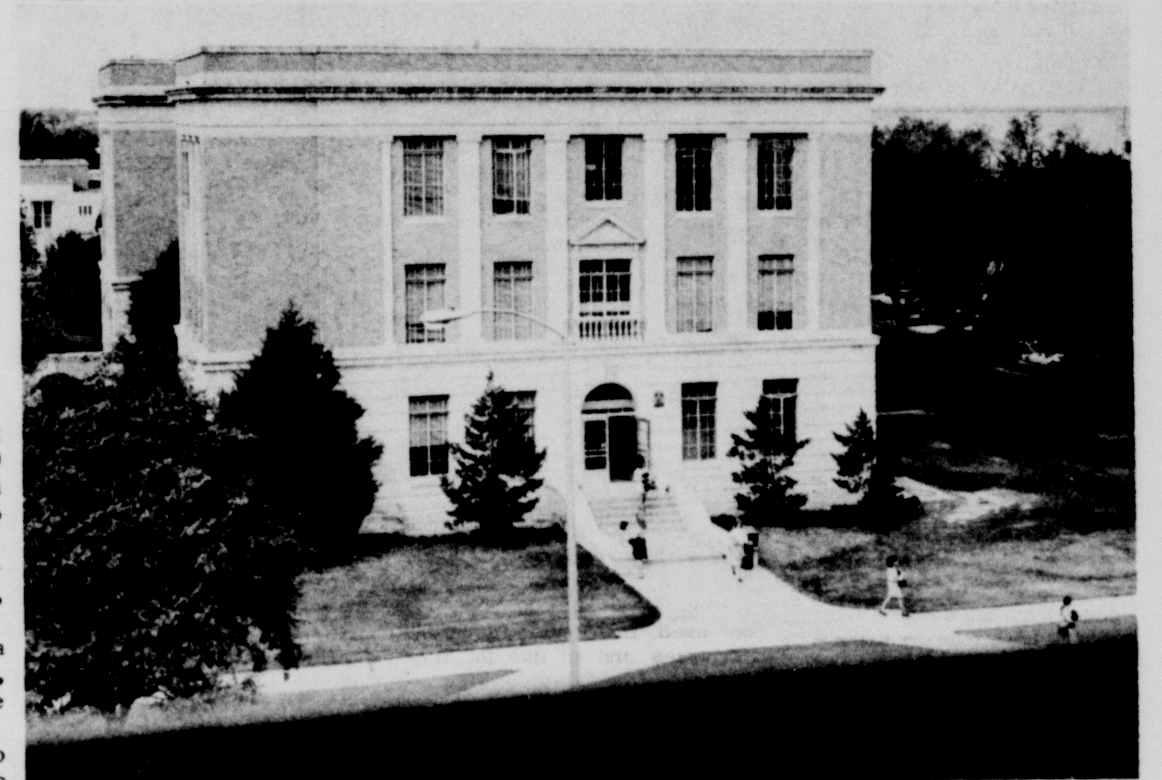

Acquired for \$50,000 in 1968, the old Methodist Center has been remodeled and renamed. It now houses a chapel for night devotionals, a student lounge

and television room, work room and residence for the newly acquired Assistant Bible Chair Director, Tony Allison of Sil-

verton.

Downing said the new assistant director was hired essentially for personal work although he will work with devotionals and activities with the students.

This year the Church of Christ Center boasts of a fall Bible Class enrollment of 219. The WTSU center is the largest Church of Christ Bible Chair in the nation, Downing said.

Buildings at West Texas State University were crowded with students coming and going, and campus streets were congested with cars as another fall term started Monday morning.

Formal Rush Set At University

Fraternities and sororities at West Texas State University will start formal rush in the next few weeks.

First event of rush will be the Women's Convocation at 6 p.m. Thursday in the Student Union Building ballroom. Girls who wish to participate in formal

rush must attend.

Women's formal rush is scheduled for Oct. 7-10. To be eligible a girl must have at least a one-point overall grade average for the previous semester.

Girls who have attended

WTSU before must have at least 12 hours of credit. No minimum number of hours is required of transfer students.

Men's formal rush is set for Oct. 6-10. Men wishing to participate signed at the Inter Fraternity Council table at registration. The IFC will also have a table in the SUB during rush week, according to Gary Hyatt, president.

To take part in rush, a man must have a one-point average for the previous semester and a minimum of 12 hours of credit.

Five national sororities and seven fraternities are represented on the WTSU campus.

Academy Has Cadets

Robert and Terry Vogel are among 340 cadets from 20 states and eight foreign nations enrolled this year at Missouri Military Academy.

The two Canyon cadets are sons of Mr. and Mrs. Robert A. Vogel, 2507 Eighth Avenue.

Mrs. Hazel Williams, owner of Imperial Chevrolet in Canyon, presents the keys to a new Chevrolet to head football coach Joe Kerbel of West Texas State University. The car was donated by the local company to the WT athletic department for use by coaches.

HAPPY HIGH SCHOOL Regional Girls Basketball Team of 1939 will be special guests for the HHS homecoming events on Friday. Team members, from left, front are Ora Mary Gurley Sims of Happy, Ruby Delle Lollar Emory, deceased, Erma Sutton Boyd of Amarillo, Loneta Heller Smith of Midland, Maurine Prewitt Allison of

Happy and Ruth Dodd Dunlap of Delhart. Back row, from left, are Ola Mae Evans Rice of Amarillo, Fern Fortenberry Spear of Happy, Juanita Raymond Witt of Perryton, Coach T. O. McClung, deceased, Margie Williams Ralston of Seoul, Korea, Opal Evans Sims of Amarillo and Mildred Guest Zachry of Rattan, Oklahoma.

Rambling North

BY JOAN FOWLKES
Mrs. Garland Turner was in Dallas last week where she attended the Texas Home Demonstration State Convention held at the Baker Hotel. The convention lasted for four days and had as guest speaker, Senator Ralph Yarbrough.

Mrs. Turner is the president of the Palisades Home Demonstration Club.

Bowling News

TWILIGHT LEAGUE: Johnson's Cafe, 14-2, is in first place for the league. Second place is C & W Potato Co., 10-6, and Byrd Pharmacy, 10-6, is in third place.

High games were Carol Schrib, 221; Joan Hicks, 192; Rhea Sanford, 192; and Marcela Crabtree, 191.

High series were Carol Schrib, 589; Marcela Crabtree, 514; Rhea Sanford, 501; and Leah Ziegler, 499.

CANYON CITY LEAGUE: Rowell Oil Company is in first place; Blackwell Insurance team is in second place; and Cooper's Market team is third.

High games were Jerry Becknell, 220; Lynn Crabtree, 216; Frank Rossi, 215; Ralph Needham, 212.

High series were Roy McCarter, 618; Ralph Needham, 580; Jerry Becknell, 577; and Bill Bell 572.

CCC Ladies Association Play Golf

Members of the Canyon Country Club Ladies Golf Association met for play Tuesday morning with six players in attendance.

In the bogey play, Mrs. Gary Garner won the most sevens with three. There was a three-way tie for the most eights among Mrs. Bill Harp, Mrs. Duane Guy and Mrs. James Lawson. Each held on eight on their scorecard.

Golf Pro, Al Forrester, gave lessons to the members concerning helps and needs of individuals or preferable clubs.

Those attending this week's play were Mrs. Bill Lee, Mrs. Duane Guy, Mrs. James Lawson, Mrs. Bill Harp, Mrs. T. G. Hull, Jr., and Mrs. Gary Garner.

In last week's play, Mrs. T. G. Hull won high on the number five hole with a score of eight. Low putts was won by Mrs. Chuck Allen with 15 and low on the number four hole was won by Mrs. Gary Garner with a six.

Those attending last week were Mrs. Guy Bufkin, Mrs. Bill Harp, Mrs. Duane Howard, Mrs. Gary Garner, Mrs. Chuck Allen, Mrs. T. G. Hull, Jr., and Mrs. Bruce Winn.

Next week's play will also be the date of the monthly covered-dish luncheon.

Cox Selected In Membership

Wesley Barrett (Barrie) Cox has been selected by audition for membership in the Harding College A Cappella Chorus at Searcy, Arkansas, according to Dr. Kenneth Davis Jr., director.

Cox is the son of Mr. and Mrs. Wesley Cox of 2508 5th Avenue. He is a freshman art major and will sing second bass. He is among 27 new members in the chorus.

The singing group makes two extended tours during the school year and records a weekly radio program "Hymns From Harding," heard over 170 stations throughout the United States. In addition the group sings for numerous campus and civic organizations.

The cheerleaders are Becky Hawkins, Cary Camfield, Shelly Dozier, Darla Carthel, Cindy Baldrige, and Meshelle Carroll.

Sponsor for the group is Mrs. J. D. Carthel.

The first game of the season is to be played this Thursday at 7:30 p.m. at Thompson Park in Amarillo against Whittier School of Amarillo.

The Falcon coach is Dave Coronado.

A celebration was in order for Mr. and Mrs. L. R. Pete Baker Saturday evening. The occasion was to celebrate their wedding anniversary.

Two other couples helped to observe the occasion. They

were Mr. and Mrs. Leonard Schmidt and Mr. and Mrs. Bill Ledbetter.

Mrs. Delbert Flock has returned home from a trip to Grand Prairie where she visited with her daughter and her husband, Mr. and Mrs. Gary Welch.

She was on the trip with a cousin from Amarillo, Mrs. James Nugent and her daughter, Beverly. The group stopped in Denton to get Beverly settled at Texas Women's University before going on to Grand Prairie.

Bradley Evans celebrated his tenth birthday Wednesday with members of the family and close friends in attendance.

Besides family members, those attending were Mr. and Mrs. Eugene Redd and their children, Stephanie, Wade, and Duane, all from Amarillo.

In his first year at Gene Howe School, Bradley is in the fifth grade.

New neighbors in the Gene Howe area are Mr. and Mrs. Bill Moore and their children, fourteen-year-old Greg, nine-year-old Rhonda, and six-year-old Gina.

The Moores moved from Amarillo where he is a petroleum engineer with the Bureau of Mines.

They are members of the South Lawn Assembly of God Church.

A "Koffee Klatch" took place in the home of Mrs. Sam Slagle of Mescalero Park, Tuesday morning.

Those attending the coffee were Mrs. Elvay Dunn and Mrs. Joe Bybee, both of Amarillo, Faye Lindsey of Los Angeles, California, and Mrs. Slagle.

Miss Lindsey is a house guest of Mrs. Bybee and the coffee was an opportunity for the other ladies to meet the guest.

Mrs. L. R. Pete Baker attended the "Kick Off" luncheon of the United Fund Drive held last Wednesday at the Civic Center in Amarillo.

Lt. Gov. Ben Barnes was guest speaker for the occasion. Mrs. Baker is a volunteer worker for the Fund Drive.

Mrs. and Mrs. Sam White of Mescalero Park were in Dallas recently where Sam was in the Methodist Hospital for extensive examinations concerning artery and vein ailments.

He was hospitalized there for seven days but is now recuperating at home. He is still confined and further treatment may be expected to take place at a later date.

Mr. and Mrs. Kent T. Evans, their daughter, Connie and Connie's friend, Stephanie Redd of Amarillo have recently returned from a trip to Old Mexico.

Another family from El Paso were also along on the trip. They were Mr. and Mrs. Gerald Pratt and sons, Merrill and Elbert.

The group took the scenic tour from Chihuahua to Los Mochis and then on to Mazatlan where they relaxed surfing, swimming, and deep sea fishing.

Garland Turner of the Palisades has recently been dismissed as a patient from the Veteran's Hospital in Amarillo following two weeks of extensive tests.

This was the second time that Garland had been admitted to the hospital for tests in the past two months.

New residents in Mescalero Park are Mr. and Mrs. Jack Hall and children, fifteen-year-old Donna and fourteen-year-old Jerry.

Jack is a business representative for the Iron Workers Union, Local 408 in Amarillo.

The family are members of the Southlawn Baptist Church. Family activities include fishing, hunting, and bowling.

The Gene Howe Parent Teacher Association Executive Board met Tuesday afternoon in the lounge of the school.

The business meeting was conducted by PTA president, Mrs. C. W. Hefley.

Business conducted included setting up the programs for the entire year. Appointment made by the president were Hospitality Chairman, Mrs. Verl West and Room Representative Chairman, Mrs. Guy Bufkin.

The first PTA meeting will be held at the school Oct. 6.
